

APPLICATION :

For toothpaste, Cosmetics, Medicine, Food, Industrial Articles, and Various Sealing for Soft Tube.

Sample

FEATURES:

1. It adopts Ultrasonic Sealing device.
2. Overload protection, phase separation protection, power-fail protection.
3. Large ultrasonic output power to ensure the sealing quality of various tube size and material.
4. With tube end trimming
5. Safety protection cover.
6. Easy Change working mold for different tube diameter.
7. Adjustable tube length

OPTION:

Code Embossed

SPECIFICATION :

Model	TFS-108	
Tube Size	Diameter	13-50 mm
	Length	70-250 mm
Filling Range	3-250 ml	
Compress Air	0.5-0.8 Mpa	
* Capacity	8-12 pcs / Min	
Voltage	220V / 1 Phase , 50/60 Hz	
Power	1KW	

WORKING PRINCIPLE :

1. Manual Load Tube

2. Auto Adjusting

3. Filling

4. Sealing
(OPTION : Code Embossed)

5. Trimming

6. Tube Outfeed

*Real Capacity depends on Filling Volume and Tube size
