

SK6000-BF6

Automatic 6 Spindle Capper

*Featuring new
belt feeding system!*

** Pictured with optional conveyer*

The SK6000-BF6 allows for quiet operation and an exceptionally quick changeover. The capper features an innovative belt feed system which is completely new and a one of a kind design. Moreover, the unit easily accommodates most 400, 410 and CRC caps from 24mm to 58mm at remarkably high speeds for an inline unit. To enhance the convenience of running the unit, the model includes a stainless steel floor level hopper.

- Floor Level Loading
- Fast Changeover
- Small Footprint
- High Speed Operation
- Non Vibratory Feeder
- 4 Cubic Ft. Stainless Steel Hopper
- Handles 400, 410 and CRC caps from 24 to 58 mm
- Dust Covers Maintain Clean Cap Supply
- Heavy Duty Stainless Steel Frame
