# INTRODUCTION

## **CARTONER CVC 1600**

The CVC 1600 Intermittent Motion Cartoning Machine is designed to meet the requirements in pharmaceutical and nutraceutical industries. The cartoning machine performs carton forming, leaflet and container inserting, code and date imprinting on the flap, and the final carton closing and discharge.

The cartoning output covers most middle speed demands. Changeover adjustment is easy and flexible. The system is adaptable with accessories to run a variety of product sizes.

A compact cartoning machine which performs carton feeding, loading and flap folding.

Highly versatile and economical mechanical intermittent motion which fits into your existing packaging line in a simple way, or may be used as a monoblock for individual machine operation.

Modular design with sensors for ease of error detection and minimal downtime.

Error indicators for rapid troubleshooting.

The line connection attachment positions each bottle and inserts it into carton with precision.

## UNPARALLELED FEATURES

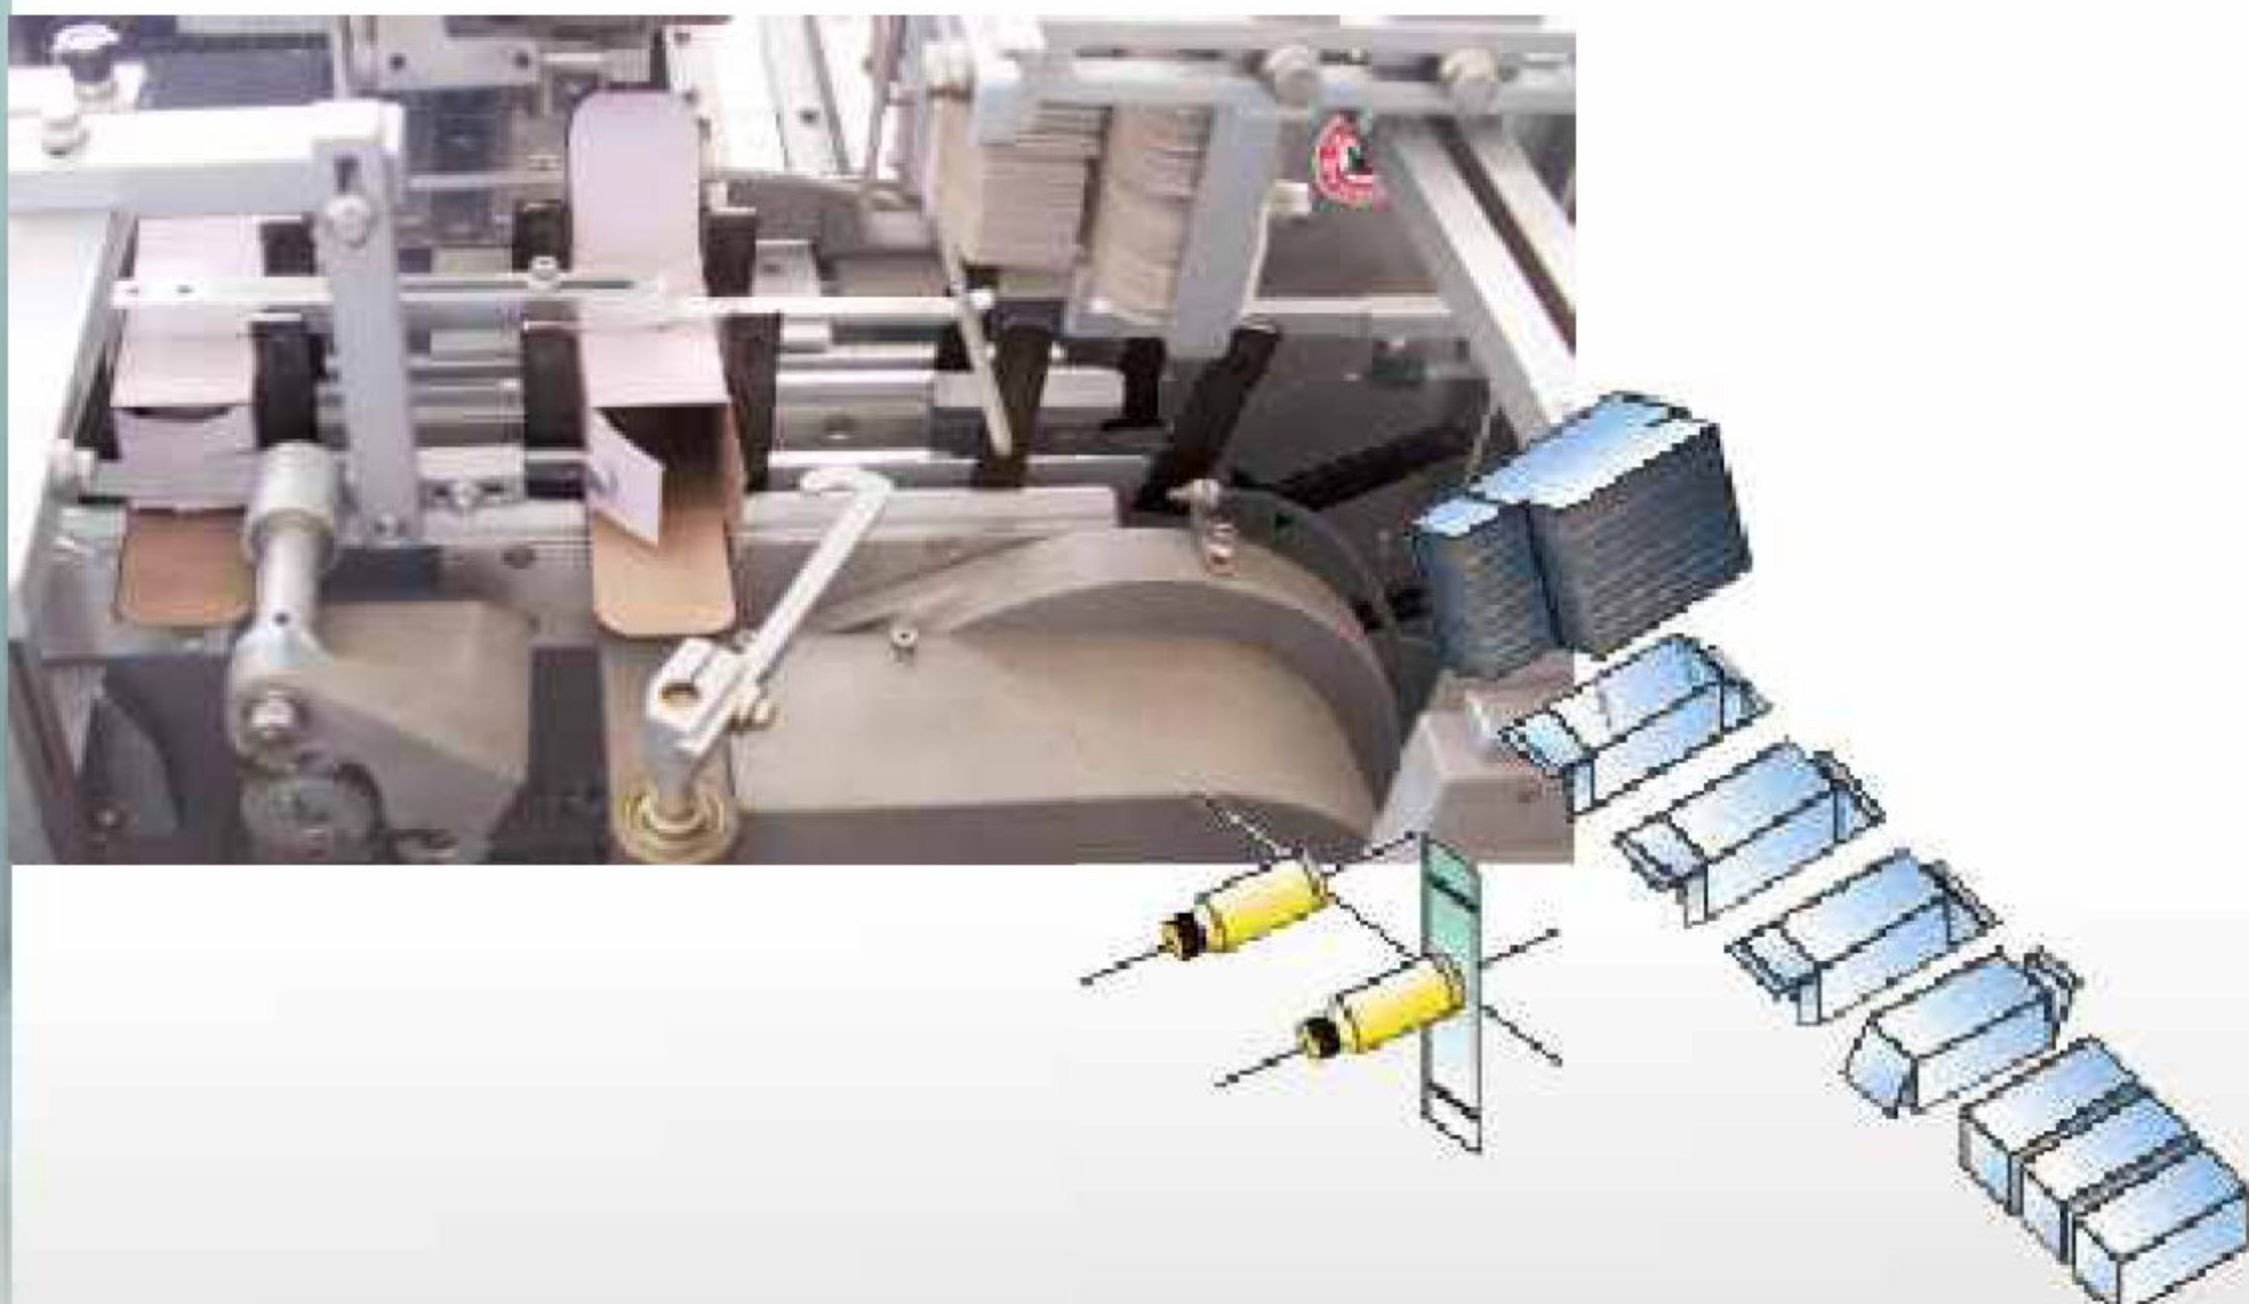

### **Options:**

Line connection attachment.

Leaflet inserter.

Emboss alpha/numerical stamper (blind emboss onto carton flap).

Heat sealing attachment.

# SPECIFICATIONS

## Technical Specifications:

Carton size range: Length: 50mm - 220 mm

Width: 20mm - 100 mm

Height: 15 - 70 mm

Output: 20 - 70 cartons per min.

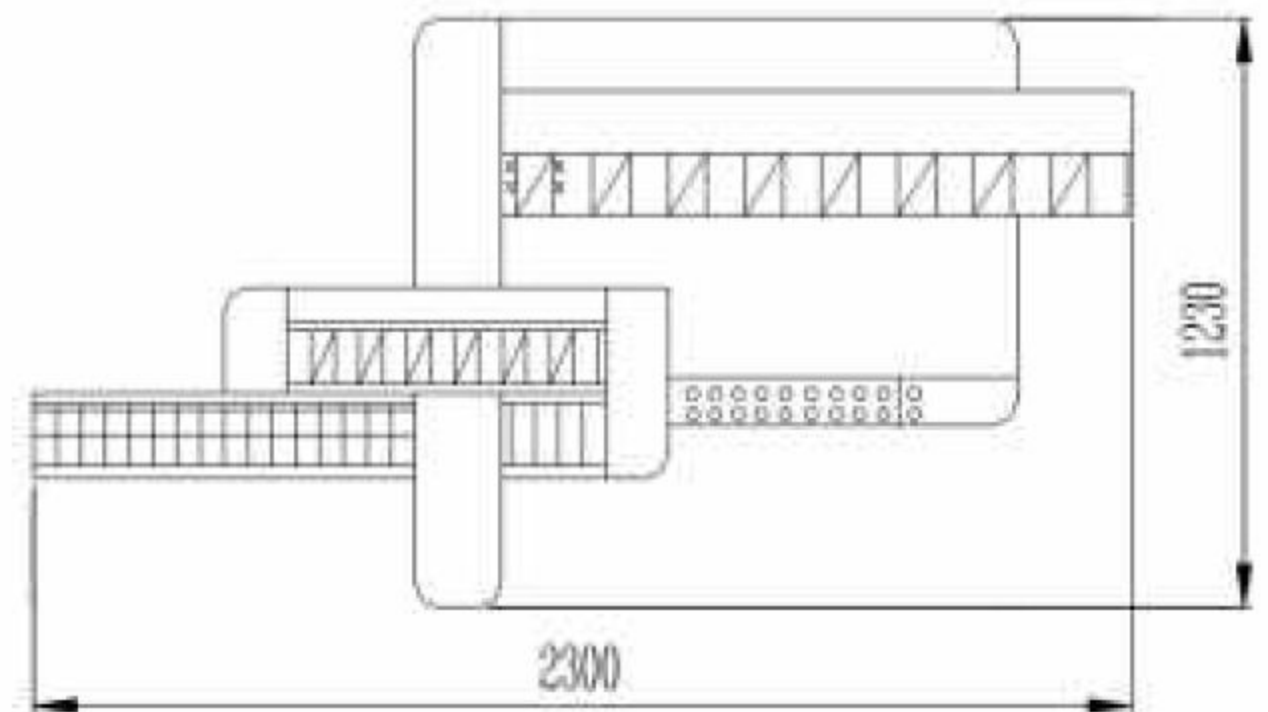

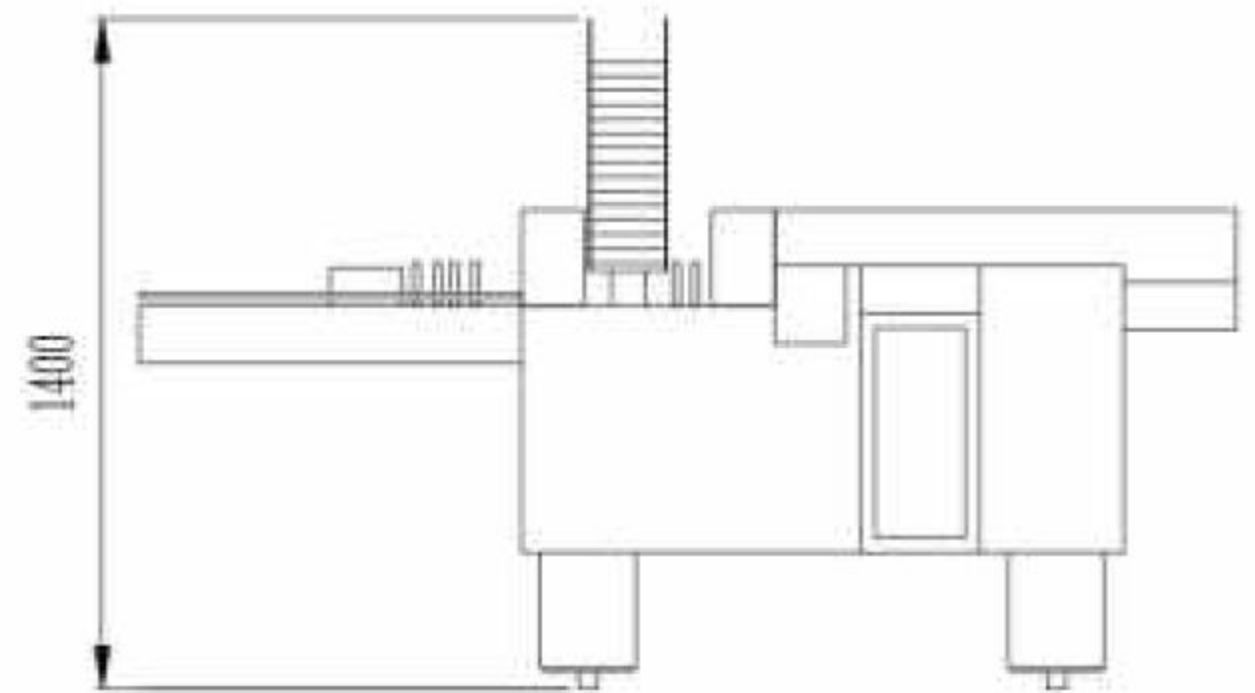

Power source: 220 V, 50/60 Hz, 1phase

Horse power: Main Drive: 1 HP

Vacuum pump: ½ HP

Compressed air pressure: 57 psi (4 Kg/cm<sup>2</sup>)

Machine dimensions: 1260 x 1230 x 1400 mm
